Dear Doctor Lederberg:

I plan to recommend the promotion of Ellis Englesberg, Ph.D. University of California to Assistant Professor in Microbiology. It would help me a great deal if you would be good enough to appraise Doctor Englesberg for me, and if you deem it advisable, to write me a letter which I could attach to my recommendation to the President. Personally, I have been quite impressed by the effective and intelligent way in which the candidate has approached the project which I assigned to him in connection with the study of the biochemistry of P. pestis. He has really grown and matured tremendously during the past two years, and I am satisfied that he deserves the recognition.

Thanking you for your kindness in complying with my request, I am with best wishes,

Sincerely yours,
